ACRES
the SEED CO.

+ K-12

OUR STORY

88 Acres' recipes started in the kitchen. In order to provide the same baked at-home quality and feel of our original creation and safety for those with food allergies, we built out our own small-scale bakery in urban Boston. We knew we wanted to open our bakery in an area of need to drive job growth. We partnered with a neighborhood economic development group and a local food startup accelerator to make it happen.

ABOUT US
